

CHILL Talent Office – Dive into the World of Chemistry & Innovation

Dive into the World of Chemistry & Innovation – Internship via CHILL

Are you fascinated by chemistry, materials, or biotech and want to work in a high-tech environment? Then an internship via CHILL on the Chemelot Campus is perfect for you.

Chemelot is a leading chemistry campus where research, education, and over 200 companies come together. Here, you can work on real research projects or production processes in factories, gaining hands-on experience directly related to your field of study.

CHILL helps you find the right match within this network, ensuring your internship fully aligns with your education and interests.

What will you do?

- Conduct lab work and experiments
- Support research projects
- Work in production environments within factories
- Analyze materials and processes

Who are we looking for?

You are pursuing an MBO, HBO, or WO (Bachelor/Master) degree, such as:

- Applied Sciences
- Chemical Engineering
- Process Engineering
- Chemistry
- Materiomics

Important to know:

- Start: from September
- Internships available in Dutch and English
- No voluntary internships

If you want to know more about this internship or are interested, please contact [**Keanne.panis@chill.nu**](mailto:Keanne.panis@chill.nu)
